General data: Pallet size: L 1200 -1350mm
W 800 – 1000mm
H 600 – 2000mm
Product: Aluminium wheels stacked special plastic trays
Delivered: to BMW and Mercedes in Germany
Pack weight: approx: up 500kg

Packaging: Pallet strapped with PET
Strapping pattern 3 x 2, test are made with 3 x 0
Stretch wrapped with 21µm film

Tool: P320/ P322 (tool discontinued) New tools P324/ P355

Automatic Machine: PM100200

Benefit of new packaging:

- * No damaged and rust marked product
- * Packaging cost saving
- * Company image
- * Safety hazard

New tests are made without corrugated top board and with 3 straps only. Strap slackens because of compressible corrugated top board.
